State offers call center support for vaccine registration New option on Department of Health hotline

January 7, 2021

The New Mexico Department of Health today announced that the DOH hotline now offers support for questions surrounding vaccine registration.

Nearly 300,000 New Mexicans have registered for vaccine at the state's website: <https://cvvaccine.nmhealth.org> The registration process is straightforward: users create a profile, enter health and other information, and then wait to receive notification from DOH when vaccine is available to them.

Users who have questions or would like support with the registration process - including **New Mexicans who do not have internet access - can dial 1-855-600-3453**, press option 0 for vaccine questions, and then option 4 for tech support.

Users who have other vaccine-related questions can call 1-855-600-3453 and simply press option 0 for vaccine questions.

=====

NOTE from member Jim Schultz: Most of you have already signed up for the vaccine--if not do it.

Many of us who signed up early were never asked to fill out the follow up questionnaire, which asks you detailed questions about your health which must be filled in eventually. On initial roll out this form did not appear automatically. But for those who have signed up but have not received an opportunity to fill in the next form here is how you can get the form yourself.

Go to: <https://cvvaccine.nmhealth.org/registration.html> >

View my Profile >

Look up my registration>

and then in small blue letters > do not know your registration number code>

then you have an opportunity to get your reg number

I just did it!
